## A Farewell to Louisa High.

Farewell Old Louisa High! We came to you as we could. But now we are leaving you for good. We leave you behind for others to find. And always to them, please, be kind: And by some you would help most, be misunderstood.

For praise does not always follow the wise and the good.

Farewell, Old Louisa High, Farewell!

Our school life in Louisa is ended today. Our work here is done, duty calls us away.

Our teachers, our school, we shall leave with regret;

The friendships here formed we'll not lightly forget.

Learning's quest we've enjoyed with its pleasures and cares;

As each to his mission repairs.

Wishing for success, but you never can tell.

Farewell, Old Louisa High, Farewell!

Let us pause here awhile in the morning of life

To view its emotions, its yearnings, its strife,

With its broad fields to conquer, its prizes to win.

That the difficult problem is where to begin—

Opportunities boundless inspiring such dreams:

Since to youth and ambition all possible seems

Just smile and say you never yet fell, Farewell, Old Louisa High, Farewell!

In the fields now before us is room for each one.

And is worth reward for all labor well done;

In its effort and toil we'll need hands that are strong

A courage that fails not when obstacles throng;

A heart that is firm and an eye that is true;

And a faith that holds fast though admirers are few.

Now we must leave that old brick school,

Farewell, Old Louisa High, Farewell to you!

## High School Notes.

The Seniors finished their last ex-

amination Tuesday morning. Weep,

no more, dear Seniors.

The Nature Study class has another

specimen. Six foot snake. How many

feet?

Wonder how Miss Hall enjoys mo-

torcycle riding by this time?

Miss Christine Bussey and Ted Jus-

tice were seen sitting on Burns' porch

Tuesday afternoon. And—nuf sed.

The Sedan crowd were all stepping

out Tuesday night.

Just think, the Seniors are all going

to learn how to play tennis. (Wonder

if such a thing is possible?)

Horrors! Alva Snyder fell in front

of Adams & Berry's store Monday.

She is still able to drive.

Wonder where the Seniors will be

next year? Wonder??

## Senior Prophecy.

United States concerning the details

of said appointments, just a word re-

lating the details of the appointment

may be necessary.

was nominated as a candidate for the presidency of the United States by the Democratic convention, and was elected as the Chief Executive of our Nation by a large majority. So one of her first steps was to unite in a measure, the members of the class of '22. This was only natural as it was with this class that the first germs of ambition were planted in her soul.

While we were in Washington, the President took us to the Barnum & Bailey circus, which was in the city to the week. We might add that circus were the chief amusement of President Plybon. Arriving at the big tent we were met by a jolly looking clown. He was dressed in a costume of red, white and blue and presented an excellent caricature of Uncle Sam. Friend clown entertained us for quite awhile with his jests and merry maneuvers. When by dint of an accidental question we discovered that our friend clown wasn't any one but Hubert Chaffin, the life of the class of '22. He appeared quite overjoyed to find out who we were and in a few minutes presented his wife to us. She was a lovely little creature and the prettiest girl in the circus troupe.

The next day we left Washington, D. C. for the golden west. Arriving in Los Angeles almost the first name we heard was that of Mrs. H—, nee Emily Conley, the society leader of the city. She was giving a reception the same evening and it is needless to say that we received cards for the same when Mrs. H— learned of our pres-

ence in the city. We first saw her in the receiving line but in a short while she sent for us and we had a delightful chat. We found that Emily was just the same as ever, not satisfied with carrying off the prize of the beauty show a few months afterwards she became Mrs. treble adding to her triumphs. Now she is carrying the honors of society on her capable shoulders and is known as the utmost efficient hostess in Los Angeles. Emily told us that Alva had literally become a second Nazimova, and had just finished a highly successful season on Broadway, but that she was spending the summer out in Colorado in preparation for the coming winter. We made our plans to go there before leaving the West.

After journeying over the country for a time we decided to go to "Roberts Farm." The next day after a long ride on horseback, we came to a lovely little cottage set between two hills. A trim little path led to the front door and a low-headed little boy sat playing on the floor. And in a chair nearby sat Mrs. W—, nee Elizabeth Roberts, sewing as usual. We sat talking over old school days until a roadster drove up to the door and Harris stepped out, we bid them farewell and submitted our report and departed to our various homes.
